

CHAPLAINCY & WELLBEING

Chaplaincy Services promote student wellbeing, engaging young people in activities that are preventative and which support early intervention and referral of mental health issues.

Principals ARE SAYING...

The benefits of the program are clear and include increased attendance at school by identified students, social and emotional support, increased access to social skills programs and families feeling supported in time of crisis such as suicide, death and family separations.

Primary School Principal

A lot of student problems never eventuate because the Pastoral Care Worker has provided support and encouragement early on. The students always walk away from their time with him with more bounce in their step....It is hard to imagine our school without thinking of our Worker.
